

PED Conference, 3 Oct 2025, Parma

STUDY VISIT ORGANIZED BY ENEA

Consiglio Nazionale
delle Ricerche

3 October

07:45	Meeting and transfer to Parma with private bus
10:00	<p>Site visit 1 University Campus</p> <p>Powering Positive Futures: Parma's Path to Climate-Neutral and Energy-Positive Districts <i>Moderator: Paola Clerici Maestosi (ENEA)</i></p> <p>This session dives into Parma's ambitious journey toward climate neutrality and energy-positive ecosystems. From Municipal strategies and the City Climate Contract to energy communities as living labs for PEDs, and a roadmap for a solar-powered, positive energy campus, the interventions highlight the interplay of governance, innovation, and community engagement. Inspiring pathways emerge for cities aiming to combine systemic vision with tangible local action.</p> <ul style="list-style-type: none"> • E. Bertolotti and M. Mordacci — "Energy Positive" and "Carbon Neutral": Two Interconnected Targets for Parma. The Strategy of the Municipality of Parma and the City Climate Contract • M. Mazzer and S. Rampino — Parma 2030 Energy Community: A Laboratory for Community-Based PEDs • Gambarotta and S. Caserini — Living and Solar: A Roadmap Towards a Positive Energy Campus
12:15	Light Lunch
12:45	<p>Site visit 2 – MAS</p> <p>Mix House is an eco-sustainable building of approximately 1,300 square meters, comprising 60 housing units intended for segments of the population who may face challenges in accessing the conventional housing market. The units will serve as a testing ground for new forms of social housing, which are crucial for addressing housing exclusion, fostering social cohesion, and building more inclusive communities. The project, implemented by Parma Infrastrutture Spa, is part of the municipal program "Abitare la rigenerazione. MAS – Mosaico Abitativo Solidale", funded under PINQuA ("Innovative Program for Housing Quality"), which is included in Mission M5C2 Investment 2.3 of Italy's National Recovery and Resilience Plan (PNRR). The total investment amounts to over €16 million, with €15.5 million allocated specifically for the construction of the new building. The program focuses on urban regeneration and housing quality, the energy-efficient renovation of public buildings, and the development of new models of social housing.</p>
14:30	Transfer to Milano. Approximate arrival time 16:30
